

Petroleum UST Remediation
Client Name: Sparks Oil Company
Project Dates: 1996-Present

Multiple Locations, NC

Pyramid has been the primary consultant for Sparks Oil Company, a mid-sized gasoline retailer with multiple outlet locations. The work has included initial assessments, UST closure assessments, LSAs, CSAs, and CAPs, obtaining a NPDES Permit, and bidding and installing the remediation systems. Pyramid has worked with multiple project locations and tasks concurrently, kept regulatory/ governmental agencies apprised of progress, worked with tight regulatory timeframes, and completed Engineering Designs and remediation projects as directed by the State. Mr. Jones has regular meeting with Sparks Oil to provide updates on work progress and results. Pyramid has just completed a \$191,000 remediation system installation
